Club Mission & Vision

The mission of South Carolina United FC Junior Academy is to help foster young playersøphysical, mental and social growth so they can reach their potential in life through their participation in soccer. The club will provide quality staff, facilities, the environment and curriculum to give players the tools to succeed.

The Clubø's vision is to develop a reputation for producing well-trained athletes and gain respect of the nation soccer community as a true soccer academy. College coaches, national coaches and professional coaches will recognize the standards of excellence embodied by the club and expect those who graduate from the club to be quality players with a solid soccer foundation and good citizens.

Mission of the Junior Academy

The ages of 6-12 are often referred to as the öGolden years of Developmentö. That is why it so important for us to place each child in the appropriate environment for their individual success. The U.S. Soccer Federation quite clearly states, "The most

Junior Academy Handbook

fundamental skill in soccer is individual mastery of the ball and the creativity that comes with it. This should be a priority in training and games, especially in the early years. As this skill is mastered, the rest of the game becomes easier to both to teach and learn. Practices should be built around facilitating the development of the skills necessary to move and control the ball well." The education of the players is truly our top priority.

Program Goals

- **Enjoy the Game:** Most importantly it is our goal for the players to have fun and enjoy playing the game of soccer. We strive to make every aspect of our program enjoyable for all players.
- **Live the Game:** We want our players to have the desire to play on their own, watch soccer on TV, attend live soccer games and to read about the game.
- **Emphasize Individual Development:** We want players to take responsibility for their own development. We believe this to be the key to success.
- **Motivate Players to Play:** Our Academy players graduate with the desire, attitude and tools needed to become a successful player in our select program.

Philosophy oní .

Philosophy on WINNING

For ages 8-12, we believe that winning is:

- To give you're best!
- To have FUN playing the game!
- To play quality soccer using skill and creativity.
- To perform new individual and team skills.

Philosophy on PLAYING POSITIONS

During the Junior Academy experience, there are so many games played that each player will have the chance to experience each position. In order to maximize individual development as well as team development we will:

- Put players in a position that suits their strengths.
- Put players in position to give the team success.
- Put players in a position in order to teach the role of the position.
- Put players in a position according to the players on the team.

Philosophy of PLAYING TIME

We will work to ensure that all players get to play at least half of each half.

Junior Academy Handbook

Philosophy of EQUAL PLAYING TIME

The Junior Academy is a Select Development Program thus we believe that players earn extra playing time based on ability, effort in training, and performance in games. Therefore players do not automatically receive equal playing time.

- 2) Players are to wear shoes or flip-flops at all times when out of their room or car.

- 5) Cleats are not to be worn inside the hotel.
- 6) No soccer balls out in the hotel lobby, halls or parking lot.
- 7) Players are to greet other guest in the hotel respectfully.

- 1) Players should be out of bed 2 hours before the scheduled start of their game. For instance 8am game, 6am out of bed moving around, getting breakfast and starting to prepare to play.
